

# *DIY All-Purpose Cleaner*

This works for counter tops, tables, cabinets, fridge interior, sink, and can even work on kitchen floors (not wood). It's a great alternative to the bleach sprays.

## **The Ingredients**

- 1 24-oz sprayer
- 1tsp borax
- 1/2 tsp washing soda crystals
- 2tbsp white vinegar
- 1/2 tsp liquid castille soap
- 2 cups hot water
- 20 drops of tea tree or lavender essential oil

## **The Directions**

Mix the borax, washing soda, vinegar and castile soap on a large measuring cup. Slowly add the hot water (just off the boil). Allow it to cool before adding the tea tree oil. Pour into the sprayer. Shake well before each use.
