

## *DIY Scouring Tile & Grout Cleaner*

This is better than any of the brand-name scouring powders, and sudsy bathroom cleaners, and costs just pennies to make.

### **The Ingredients**

- 1 cup baking soda
- 2/3 cup liquid castille soap
- 20 drops of whichever essential oil you love
- Large container with a lid (I use a glass Pyrex storage container).

### **The Directions**

Place all the ingredients except the water in your container. Mix to a thick paste. You may need more or When ready to use, scoop out a glob of the paste with a scouring sponge or a natural bristle brush.
