THEY MAKE "BEING GREEN" OH SO GLAM

## **@plantsandcollecting**

@plantsandcollecting is the queen of creating beautiful plant-scapes, almost like a living collage. I LOVE her cactuses!

## **@vivvie\_the\_gardener**

@vivvie\_the\_gardener is based in Christchurch, NZ and I cannot get enough of her indoor plants (although she also photographs her garden).

## **@plantmama\_**

@plantmama is a self-described "plant designer, stylist, photographer & creative-green-thumb forming curated plant chaos." DREAM JOB!

## **@thejungalow**

Justina Blakeney is the queen of boho-plant-inspired interior decorating. I want to live in everyone space she touches, and with her own product line, you actually can! Warning: lifestyle inspo ahead!

HAPPY PLANTING!
